Spring, 1896.

VICK & HILL  
COMPANY.

(INCORPORATED.)

Florists,

ROCHESTER, N. Y.

Clara Goodman,

OUR NEW YELLOW

CHRYSANTHEMUM.

*A Novelty of great value and  
sterling merit.*

COLOR, DEEP GOLDEN YELLOW.

Engraving  $\frac{1}{2}$  natural size.

(See description, page 4.)

WHOLESALE CATALOGUE.

FOR FLORISTS AND DEALERS ONLY.

## To Our Patrons.

We are now pleasantly located at Barnard Crossing, four miles north of Rochester (from the center of city), on the Charlotte Branch of the N. Y. C. & H. R. R., and only five minutes walk from the Rochester Electric Railway (Charlotte Branch.)

We should be greatly pleased to have as many of our customers call and inspect our plant as can find it convenient to do so, assuring each one in advance that we will do our utmost to make their visit, not only a pleasant and profitable one, but a memorable one as well.

We thank our customers for their liberal and increased patronage, and trust that we may be favored with their orders in the future.

To those who have had no dealings with us, we wish to say, favor us with a trial order. We guarantee satisfaction.

Respectfully yours,

VICK & HILL CO.

## Novelties and Specialties.

• • • • •

NEW SILVER-EDGED ABUTILON, SOUVENIR DE BONN.

1/2 nat. size

A novelty with so many distinct and valuable characteristics as are contained in this New Abutilon is seldom introduced. It is a strong, healthy grower, with large foliage of a deep green color, each leaf being handsomely bordered with a broad white margin in the same manner as the Silver-edged Geranium. The flowers are quite large, a beautiful shade of orange with showy crimson veins. Equally valuable for bedding or decorative purposes.

Price, per dozen, 75 cents; per hundred, \$6.00.

## The Queen of "Gilt-Edged Cannas" Queen Charlotte.

The greatest acquisition to this superb class of bedding plants. The flowers are of the most brilliant, dazzling scarlet-crimson, with a massive, broad gold border, excelling in beauty and wonderful display any Canna ever introduced.

The plant is a strong, compact grower, and the flowers stand well above the handsome, musa like foliage. Each main stem is followed by several lateral shoots which insure an unbroken succession of bloom. No other Canna ever came so quickly into popular favor.

Strong plants, per dozen, \$2.00.

## ANEMONE WHIRLWIND

(*Anemone Japonica Alba*, fl. pl.)

### New Double Flowering White Anemone.

It is with considerable pride that we announce to the *Floral World* that we are the disseminators of this superb and valuable novelty. Not often is such a rare and valuable acquisition added to our list of hardy herbaceous plants, and especially one which has so many valuable characteristics. Like the *Anemone Alba*, from which it is a sport, the blooming season is in the autumn; then it is that the great value of our *Anemone Whirlwind* becomes apparent, as all flowers are very scarce at this season, especially white flowers, therefore this variety will prove to be indispensable to florists on account of its wonderful adaptability for use in all floral and ornamental designs.

The flowers are about 2½ inches in diameter, pure snowy white, of good substance and very handsomely formed, having several rows of petals.

The plant makes a strong healthy growth, is well covered with foliage, and in this variety has proved to be even more hardy than its parent; this we consider another great point in its favor.

Having by special effort grown an immense stock of this superb novelty, we are enabled to offer it at a price within the reach of all.

Price, per dozen, 75c; hundred, \$6.00; thousand, \$50.00.

## CARNATIONS.

Of the many novelties in Carnations, we offer the following as those which have special merit, and should receive a thorough and extended trial. They are strong, healthy, vigorous growers, producing large showy flowers, good substance, and in every respect strictly first-class.

**ALASKA.**—Purest white; a seedling from McGowan and quite similar in habit of growth. The flowers are larger in size and more symmetrical in form than those of its parent; a healthy, vigorous, promising variety.

**CORSAIR.**—Scarlet McGowan; of strong, vigorous habit, producing its large brilliant flowers on long, stiff stems. Corsair apparently leads us one step nearer to the much wanted standard scarlet sort.

**METEOR.**—Crimson scarlet; deep and brilliant; flowers very large and attractive; a splendid grower with clean healthy foliage; flowers will keep a week after cutting.

**ROSE QUEEN.**—Pure, soft rose color; a beautiful and desirable shade which is always admired and in great demand. The flowers are large, on stiff, erect stems, of good substance, and produced freely on the plant. Mr. Simmons claims Rose Queen to be one of the best of his productions.

Price of above Rooted Cuttings, dozen, 50c.; hundred, \$3.00; thousand, \$25 00.

“ “ Plants, “ 85c.; “ 6 00; “ 50.00.

### Carnation, William Scott.

This grand variety has come to stay; in fact it is the general verdict that it is the best pink carnation in cultivation at the present time. It is simply perfection in habit of growth, freedom of bloom, size and color. Every grower should plant the William Scott freely.

Rooted cuttings per dozen, 30c.; hundred, \$2 00; thousand, \$15 00.  
Plants per dozen, 60 cents; hundred, \$4.00; thousand, \$35.00.

### Carnation Daybreak.

Daybreak is the best and most popular carnation grown. It has no rival, therefore is still in great demand. The flowers are a most beautiful shade of delicate pink; large, well formed, and for the retail trade have no equal.

Rooted cuttings, per dozen, 30c.; hundred, \$1.50; thousand, \$12.00.

Plants per dozen, 60c.; hundred, \$4.00; thousand \$35 00.

## CHRYSANTHEMUM.

### Clara Goodman.

Large, Late Flowering Yellow. Honors are not easy to attain at the present time on account of the many introductions in this class of very popular plants, but when we introduced George S. Conover Chrysanthemum as the very best, large, early, flowering yellow, we scored a great success. We want more of the same kind of medicine, therefore, in introducing our new, large flowering, late variety, Clara Goodman, to our customers, they may rest assured that they will not receive an untried sort, which will have to be discarded after growing a year or two. We have grown it four years, and the past season it was even better than the first year it bloomed.

In making up your list of new Chrysanthemums, don't overlook Clara Goodman, as we are confident this variety will be one of the few introductions of 1896 which will prove to give entire satisfaction and become a popular and standard sort. The flowers of this variety are about the size of Philadelphia, full and double to the center, of a very bright, deep yellow, borne on erect, very stiff stems which are well furnished with handsome, dark foliage. This variety is not a tall grower, and therefore well adapted for planting on a side bench. (See 1st Page.)

Plants per dozen, \$2.00; hundred, \$15.00.

Wm Scott.

## Early Blooming Yellow Chrysanthemum, George S. Conover

In the George S. Conover we have the wonderful combination of a first-class large flowering and early blooming yellow Chrysanthemum which has long been the want of the professional florist. This variety blooms at the same time as "Ivory," and the flowers, under ordinary cultivation attain a size from 6 to 9 inches in diameter.

The color is a beautiful shade of brilliant yellow, the petals firm, partly tubular and partly flat, which adds greatly to the beauty of the flower. The plant is an extra strong grower, producing very long, stiff flower stems, which are well furnished with a dark, showy foliage.

Again, Mr. Wm. Falconer has words of praise for our superb Chrysanthemum. The following appeared in Gardening Dec. 1, 1895.

### GEO. S. CONOVER CHRYSANTHEMUM.

On Wednesday, November 13th, we received a box of flowers of this Chrysanthemum from Vick & Hill, of Rochester, N. Y. We at once placed them in a vase filled with water on a table in our sanctum, and there they are yet, November 25, some of them, notwithstanding their 400 miles journey by express, are more perfect than they were on their arrival, and others only beginning to show a little the worse for wear. Every bloom stands erect on a stem as stiff as a poker. The flowers are  $4\frac{1}{2}$  inches in diameter, and full double. Perfect globes of a clear, pure yellow color. They are splendid blossoms, and we are glad so good a flower has been selected to commemorate the name of so distinguished a gentleman as Mr. George S. Conover of Geneva.

We have also received many testimonials similar to the following:

I. M. BRAINARD, Market Gardener, Dealer in Fruits and Flowers.

VICK & HILL, Rochester, N. Y.,

Gouverneur, N. Y., Dec. 9, 1895.

Dear Sirs:—I have read what Wm. Falconer, the editor of Gardening says in the last number of that publication in regard to the Chrysanthemum, George S. Conover. I also wish to pay willing tribute to the excellency of that variety. Marion Henderson is the best early yellow I ever grew; close upon this follows George S. Conover. It is an easy variety to grow, and then its freedom of bloom, long keeping qualities and excellent color make it the Chrysanthemum grower's special favorite. I trust every florist will plant largely of this variety. What the Concord is among grapes George S. Conover is among Chrysanthemums—the variety for everyone.

Trusting your sales of this variety the coming spring will be as large as the variety merits. I am yours truly,

I. M. BRAINARD.

Strong plants, per dozen, 75 cents; hundred, \$5 00.

## New Chrysanthemums.

**Philadelphia.**—This variety is a decided acquisition. In color and form it is entirely new and distinct, being of a pure white, illuminated with lemon yellow, very full and nearly globular.

**J. E. Lager.**—Early yellow, reflexed Japanese type, of good size and substance, good foliage and stem.

**Mrs. Henry Robinson.**—A very perfect form of the Chinese type, splendid early bloomer, of strong growth and excellent habit. Flowers large, pure white, on long stems with good foliage.

**Marion Henderson.**—One of the best early blooming yellow varieties. Flowers very large, showy, and of a light golden yellow color; plant of good habit and strong growth.

**Mad. F. Bergmann.**—The best early white, very full and of good size; color pure white with creamy center.

**Golden Mound.**—Flowers very large in size, of a beautiful golden yellow color, changing to a lighter shade as they grow older; petals long, tubular, and completely fill up the center of the flower as they expand, virtually forming a beautiful golden mound.

Price, per dozen, \$1.25; hundred, \$10.00.

## DAHLIAS.

SHOW DAHLIA.

Our list is comprised of the best standard varieties in cultivation. They are all good growers, free bloomers, and the best of their respective classes, either for cutting or exhibition purposes. We offer *strong field grown roots* of the following varieties. Per dozen, \$1.25; hundred \$10.00.

**Ada Tiffin.**—Light peach, tinged with rose.

**Black Prince.**—(Cactus)—Dark, velvety maroon, extra fine.

**Bird of Passage.**—White, tipped with pink.

**Charming Bride.**—(Cactus)—White, tipped with pink.

**Client.**—Rich crimson, erect habit, showy.

**Criterion.**—Primrose, tipped with purple.

**Ethel Vick.**—Soft shell-pink, beautiful.

**Emily.**—Blush, suffused with rose, large.

**Goldfinder.**—(Dwarf)—Golden yellow, free bloomer.

**George Rawlings.**—Very dark maroon.

**James Stephens.**—Bright orange scarlet, fine.

**James Vick.**—Purplish maroon, color intense, flowers full and symmetrical.

**Lottie Eckford.**—White, striped with purple.

**Oriole.**—Golden ground, striped and tipped with scarlet.

**Prince Bismarck.**—Beautiful large purple.

**Profusion.**—(Pompon)—Crimson, tipped with white, fine, free bloomer.

**Snowcloud.**—Pearly white.

**White Aster.**—(Pompon)—Pure white, beautifully frimbriated.

## Two Grand New Fuchsias.

WHITE PHENOMENAL.

**White Phenomenal.**—Every florist is acquainted with the Phenomenal Fuchsia (Purple), and undoubtedly enjoyed a pleasant experience in growing and selling it as one of the most satisfactory as well as profitable varieties ever introduced. From this variety we have a sport identical with its parent in every respect, except, the coloring of the corolla, which is a fine white, heavily shaded and vined with carmine. This variety should and undoubtedly will become ever more popular than its parent; as the large snowy flowers are much more beautiful and attractive.

Per dozen, \$1.50; hundred, \$12.00.

**Little Beauty.**—(Ever blooming.) Never was a name more properly applied, than to this superb little Fuchsia. The plant forms a perfect symmetrical, miniature tree, which is literally covered with buds and blossoms. One hundred and fifty buds and blossoms on a plant grown in four inch pot, and only about nine inches high, is a record hard to beat. The plant is a perpetual bloomer; flowering when only about two inches high, and continuing to blossom the year round. The flowers are medium in size, being one and one-half inches long; with bright red tube and sepals, and a rich violet purple corolla. Per dozen \$1.25; hundred \$10.00.

## STROBILANTHES DYERIANUS.

Seldom is a plant having so many excellent qualities as this new variety of *Strobilanthes* brought out. It is equally as desirable for bedding purposes as the *Coleus*, and may be used in connection with them to great advantage. The foliage is most beautiful, and highly lustrous, being of a bright metallic purple with rose shadings, and a deep green margin. It is equally as valuable for pot culture as bedding. The great beauty of this plant must be seen to be appreciated.

Per dozen, \$1.00; hundred, \$8.00.

## SWAINSONA GALEGIFOLIA ALBA.

This plant is now quite popular both for greenhouse and house culture. The foliage is very graceful, the flowers are produced in sprays of a dozen or more, pure white and much resemble the Sweet Pea. It is splendid for cutting and very beautiful to use in all cut flower work. May be grown either as a climber or in bush form. When well established the plant blooms continually.

Per dozen, 75c.; hundred, \$6.00.

STROBILANTHES.

## NEW HYBRID TEA ROSE.

**Belle Siebrecht.**—The following is the disseminator's description: "A truly superb Rose, the result of a cross between *La France* and *Lady Fitzwilliams*. Color imperial pink. Mr. Schuyler F. Matthews, the greatest authority on colors in America, pronounces it a solid pink of the richest shade, a rare color. The flowers, which are sweetly perfumed and large, beautifully formed, and of that long, tapering shape, with high center, and when half blown the petals reflex in a graceful manner. The buds (which are borne on strong, erect stems  $1\frac{1}{2}$  to 2 feet long) are from  $2\frac{1}{2}$  to 3 inches in length, and when fully open the flowers are  $5\frac{1}{2}$  to 6 inches in diameter without showing the center. The flowers have great substance. It is a free and vigorous grower, with large and glossy foliage of leathery texture, entirely free from mildew. A most prolific bloomer, every growth producing a perfect flower. It has also proved itself perfectly hardy out of doors in this country, and a free, thorough everbloomer.

Plants, from  $2\frac{1}{2}$  in. pots, per dozen, \$1.25; hundred \$10.00.

## NEW SINGLE VIOLET THE CALIFORNIA.

It is quite evident that this beautiful New Violet has given general satisfaction and has come to stay. The flowers have taken well in the retail trade, selling rapidly at a greatly advanced price over the *Marie Louise*.

The flowers are very large, of a clear violet-purple, on long stems, and intensely fragrant.

The plant is a remarkably strong grower, an abundant and continuous bloomer.

Plants, per dozen, 75 cents; hundred, \$5.00.

## AZALEAS. FOR EASTER.

The Azaleas we offer are very strong, and have full, well developed heads.

First size, crowns 12 to 15 inches in diameter, each 75 cents; per dozen, \$8.00.

Second size, crowns 10 to 12 inches in diameter, each 60 cents; per dozen, \$6.50.

Third size, crowns 8 to 10 inches in diameter, each 45 cents; per dozen, \$5.00.

FUCHSIA TRAILING QUEEN.

## New Fuchsia, Trailing Queen.

This new and entirely distinct variety will prove of great value, because of its distinct trailing habit. The plant is a very robust grower, and sends out strong, trailing vines, which will droop two or three feet in a very short time.

It branches freely, and as the growth continues downward these branches furnish an abundance of bright, rosy-scarlet flowers. The flowers are borne in clusters, are very large, long and graceful; buds, tube and sepals a bright, rosy-scarlet, while the corolla is of a rich violet-purple.

In all work, such as window boxes, hanging baskets, etc., this Fuchsia will be found invaluable, as the bright, showy flowers will greatly enliven and relieve the usual mass of dull foliage.

Per dozen, 75 cts.; per hundred \$5 00.

## CLEMATIS.

We have an immense stock of these beautiful hardy climbers.

**Henry.**—The best large flowering single white sort. Strong two-year plants, per hundred, \$25.00; thousand, \$220.00.

**Jackmanni.**—The best large flowering purple sort. Strong two-year plants, per hundred, \$25.00; thousand, \$220.00.

**Paniculata.**—We can hardly say too much in praise of this little beauty. The vine is a strong, robust grower, and is covered in August and September with a snowy mass of beautiful star-shaped white flowers. No other flowering vine that we know of so completely covers itself with flowers. The panicles of bloom are very useful to the florist, both for decorative and design work. Strong two-year roots, per dozen, \$1.50; hundred, \$10.00.

**Davidiana.**—One of the most desirable, hardy herbaceous perennials, growing from two to four feet in height, with handsome foliage; the leaves growing in whorls around the stem, and the flowers being produced from the axils of the leaves in great profusion. The flowers are bell shaped, similar to the Hyacinth, deep lavender or violet in color, and have a delightful fragrance. Plants per dozen \$1.25; hundred \$10.00.

## COLEUS.

### Three Splendid New Bedders.

**Buchursts Gem.**—Maroon, with a deep border of yellow; strong grower; fine.

**Mrs. F. Sander.**—A beautiful and distinct variety of dwarf, bushy habit; center of leaf creamy white, with a well defined margin of green, bronze, crimson and purple, also very desirable for pot culture. Per dozen, \$1.00; hundred, \$8 00.

**Snowcrest.**—The leaf of this variety has a small green center and very broad creamy white border. When bedded out the plant has the appearance of being nearly pure white. A superb variety.

Plants, per dozen, 75c.; hundred, \$6 00; except as noted.

## Carnation Lizzie McGowan.

This is the best white variety ever sent out, and is just what is needed—a strong, vigorous grower, that is an **early, continuous bloomer**. The flowers are large and full, beautifully fringed, all borne on long stems, and never burst the calyx; very fragrant.

Rooted cuttings, per dozen, 35c.; hundred, \$1.50; thousand, \$12.00.  
Plants, " " 60c.; " " 4.00; " " 35.00

## CARNATIONS, GENERAL LIST.

We are large growers of Carnations for Cut Flowers, Rooted Cuttings and Plants, therefore we are confident that every variety we offer is strictly first-class. Our stock is large and fine and in the best possible health. We guarantee perfect satisfaction.

Prices quoted are for **ROOTED CUTTINGS**. **PLANTS** are Double these prices.

## CHRYSANTHEMUMS.

We grow only the best Chrysanthemums, and our customers may feel assured that the following list is the **CREAM** for Cut Flower and Exhibition purposes:

- Ada Spalding.**—Rich deep pink, shading to pearl white.  
**Cullingfordii.**—Rich crimson pink, shaded scarlet; one of the best crimsons yet introduced.  
**Dorothy Toler.**—Rich shade of pink, tipped with rose; fine form.  
**Ed. Hatch.**—Immense incurved, color soft lemon and bright pink; fine for exhibition purposes.  
**Edna Pras.**—Light salmon, well formed.  
**Emma Hitzeroth.**—Flowers large, bright lemon yellow.  
**E. G. Hill.**—Bright yellow and bronze.  
**Frank Thompson.**—White, shaded pink.  
**Geo. W. Childs.**—Dark crimson, flowers very large, a splendid variety.  
**Glorisum.**—Light cream, with narrow, graceful curved petals.  
**Hicks Arnold.**—Flowers large, of an old gold color.  
**Harry Balseley.**—Pearl pink, shading of mermet pink; a first-class cut flower.  
**Harry E. Widener.**—Large, bright lemon yellow; incurved.  
**Harry May.**—Golden bronze, large and double.  
**Iora.**—Flowers large, of a delicate light pink color; petals tubular their entire length. A beauty.  
**Ivory.**—The finest White Chrysanthemum grown. If we were to grow but one variety it would be Ivory. Flowers of the purest white, large and fine form, habit dwarf.  
**Jessica.**—One of the earliest and best whites.  
**J. C. Vaughan.**—Rich plum crimson.  
**Kiota.**—Large, incurved, color deep yellow.  
**L. Canning.**—Pure white, large flower, late.  
**Louis Boehmer.**—The Pink Ostrich Plume; silvery pink, shaded deep rose.  
**Maud Dean.**—Flowers extra large, perfectly double, with broad incurved petals; color clear pink almost rose. One of the best.  
**Major Bonnafon.**—Soft yellow, incurved type; flower large and full, of short-jointed growth and splendid foliage.  
**Mrs. E. G. Hill.**—Very large, a handsome shade of lavender-pink, good stem and foliage.  
**Miss Mary Wheeler.**—Pearly white, delicately tinged pink.  
**Mrs. E. D. Adams.**—Very large, pure white.  
**Mrs. Wm. S. Kimball.**—Cream, shading to yellow.  
**Mrs. Minnie Wannemaker.**—Large and fine, white.  
**Mrs. J. G. Whilidin.**—Clearest yellow, extra early.  
**Mrs. Geo. Rundle.**—Incurved, white, a beautiful variety.  
**Miss Kate Brown.**—Early, white, good for either cutting or pot culture.  
**Mrs. Robt. Craig.**—Pure snowy white, flowers very full and globular, a superb variety.  
**Mrs. L. C. Maderia.**—Flowers very large, with petals so arranged as to form a perfect globe of bright orange color.  
**Niveus.**—A superb white variety for any purpose, flowers large, beautifully formed, compact, and in every way strictly first-class.  
**Oriana.**—A tall late bloomer, color pink, outer petals reflexed, center incurved.  
**Pres. Wm. R. Smith.**—Pure self pink, about the shade of Daybreak Carnation, perfectly double, splendid for cutting.  
**Swanley Yellow.**—Pure yellow, large reflexed flowers, dwarf.  
**Source d'Or.**—Golden twisted florets, tipped yellowish-brown.  
**Snowball.**—A lovely variety, pure white.  
**The Queen.**—A beautiful half-globular formed flower with broad incurved petals, growth robust, with heavy, deep green foliage and stiff stems, color pure white.  
**V. H. Hallock.**—Pearl pink, deeper shade in center.  
**W. H. Lincoln.**—Immense flower, golden yellow.

Selection from above list, 60 cents per dozen; \$5 00 per hundred.

## VERBENAS.

### Extra Selected Mammoth Strain.

For large size of individual florets, brilliancy of color, freedom of bloom and vigorous habit of growth, our Extra Selected Mammoth Verbenas are unsurpassed by any in the world. Try them and be convinced.

## BEGONIA REX.

**Inimitable.** Light, even shaded leaf; of a polished metallic steel color.  
**Bignonia Radicans.** (Trumpet creeper.)

# BOUVARDIA.

This valuable class of plants has been much neglected of late, as growers in general have devoted all their available berch room to the Rose, Chrysanthemum and Carnation. With us the Bouvardia pays well. Each season we devote one entire house to its cultivation, and the flowers find ready sale at a good profitable margin, the single varieties selling readily at three dollars, and the double at four dollars per hundred, wholesale, during the holiday season, and at other times always in demand at a good living profit. To those who have had no experience in growing this beautiful class of plants, it might be well to say they require about the same treatment and temperature as Carnations.

BOUVARDIA.

Strong plants from open ground, ready about September 1st  
per dozen \$1.00; hundred \$7.00.

Strong plants from 2½ inch pots, ready May 1st, per dozen  
hundred \$5.00.

### SINGLE.

### DOUBLE.

**Davidsonii** White. **Alfred Neuner.** Pure white, fine.  
**Brunetti.** Light bluish. **President Garfield.** Pink, a very  
**Pres. Cleveland.** Crimson scarlet. delicate shade.  
**Coleus.**

**Carminata.** Carmine, maroon border, edge light green.  
**Crimson Velvet.** Crimson, spotted with black.  
**Firebrand.** Bright carmine, shaded with black.  
**Hero.** Chocolate maroon, almost black.  
**James Barnshaw.** Yellow and crimson streaked.  
**J. H. Slocombe.** Maroon. edged with gold and yellow  
**John Goode.** A splendid yellow bedding variety.  
**Pioneer.** Violet-crimson, bordered dark maroon.  
**Spotted Gem.** Yellow, spotted crimson, green and orange.  
**Tesselata.** Marbled with green and pale yellow.  
**Verschafeltii.** Velvet-crimson.  
Per dozen 50c.; hundred \$4.00.

## CANNA.

**President Faivre.** Bronze foliage; splendid bedder; flower amaranth-red.  
**Robusta.** Tall grower; foliage bronze; excellent for bedding purposes.  
Per dozen 60c.; hundred \$5.00.

## CYPERUS ALTERNIFOLIUS. (Umbrella Plant.)

A beautiful decorative plant of easy culture, producing a whorl of narrow leaves on stiff stems; splendid for pot culture - ferneries; a superb plant for growing in an aquarium.  
Per dozen 60c.; hundred \$5.00.

## New Ever-Blooming Cannas.

The French, or Ever-blooming Cannas, are now the most popular bedding plants we have. The flowers are of immense size, brilliant showy and gorgeous. Their wonderful freedom of bloom, large flower heads and beautiful foliage cannot be excelled by any other bedding plant for a grand display.

These Cannas are also very desirable for house culture. After the plants have done duty in the garden all summer, the roots may be divided, potted, and started into growth. They will soon make elegant blooming plants, and will sell readily with any florist having retail trade.

The varieties we offer are among the best and most popular of recent introduction.

	DOZ.	100
<b>Admiral Courbet.</b> —Flowers very large, beautiful citron-yellow, striped with orange-scarlet .....	\$0 75	\$6 00
<b>Alphonse Bouvier.</b> —The finest crimson; on opening the flowers are intense brilliant crimson, but change to a beautiful deep crimson as they more fully expand; the spikes are very large, and the flowers of immense size; the plant is a robust grower, and is well covered with a rich green foliage.....	90	7 00
<b>Brilliant.</b> —Rich shade of bright scarlet, foliage green; a very free blooming variety; good bedder.....	75	6 00
<b>Captaine P. de Suzzoni.</b> —The best of the spotted varieties; the flowers are a rich shade of canary yellow, beautifully spotted and dashed with a handsome shade of red; foliage light green.....	90	7 00
<b>Chevalier Besson.</b> —Flowers clear crimson, foliage rich green.....	75	6 00
<b>Egandale.</b> —Splendid scarlet bedder with dark foliage, large flowers and immense compact spikes....	1 00	8 00
<b>Explorateur Crampbel.</b> —Very large petals, large open flowers and spike; color brilliant scarlet, covered with showy crimson spots; the most handsome and showy of all the red sorts; foliage green; strong grower.....	1 00	7 00
<b>Florence Vaughan.</b> —This superb variety may be ranked as one of the best and most beautiful of the newer sorts; the flowers are of immense size, and have large, broad, well rounded petals; color bright lemon-yellow, with brilliant showy red spots; splendid broad foliage.....	\$1 25	\$9 00
<b>General Boulanger.</b> —Canary-yellow, mottled and streaked with crimson; foliage green.....	75	6 00
<b>Geo. W. Childs.</b> —In color this variety is similar to Mad. Crozy, but the petals have a broader yellow band and throat; the spikes are very long and full, many blooms being open at one time, making a beautiful display quite equal to Gladiolus; the plant grows to a height of less than 3 feet, produces its flowers well above the foliage, and will prove very valuable as a border variety.....	1 25	10 00
<b>J. D. Cabos.</b> —A distinct sort, with handsome orange colored flowers and showy bronze foliage; a new and novel color, making it one of the most desirable new varieties; very fine bloomer.....	1 25	10 00
<b>Louis Chretien.</b> —Foliage bright green, flowers a beautiful shade of yellow, edged with rosy crimson.....	75	6 00
<b>Madam Crozy.</b> —This is the grandest Canna of all. Its flowers are of the largest size and most brilliant, showy color, being a flaming crimson-scarlet, bordered with gold. A rare and beautiful combination of colors, having all the beauty of the rarest Orchid. The plant is of strong, vigorous growth, yet dwarf in habit, not exceeding four feet in height, with massive bright green foliage. As a bedding variety Madam Crozy has no equal for making a grand display, and is quite as desirable for pot culture at Star of '91.....	1 00	7 00
<b>Paul Marquant.</b> —An entirely distinct and novel color; the flowers are of a very bright salmon-scarlet, shading to rosy carmine; very handsome and desirable; foliage rich dark green.....	90	7 00
<b>Star of '91.</b> —This beautiful and popular variety is of more dwarf habit than Madame Crozy, growing only about three feet in height, which for many purposes is a great advantage, especially in pot culture, or for planting in front of the taller sorts when bedded. The habit of the plant is all that can be desired; it has beautiful foliage, and the large handsome trusses of brilliant orange-scarlet flowers are produced without intermission as long as the plant is kept in a growing condition.....	1 00	7 00
<b>Tonkin.</b> —Flowers large, beautiful clear yellow, spotted carmine in the center; foliage deep green.....	75	6 00

MADAM CROZY.

## New Branching Asters.

WHITE BRANCHING ASTER.

Since the introduction of the *New White Branching Aster*, we have grown this variety very extensively for the cut flower market. The past season our daily shipments were from 3,000 to 5,000 blooms, and as the demand has been steadily on the increase, we consider it sufficient evidence that the *Branching Aster* has already become a standard market flower. As a *money maker* this Aster is far ahead of any other summer or autumn blooming plant. The flowers are very large, on long stiff, well foliated stems, pure snowy-white, with gracefully curved and twisted petals, forming a flower of great beauty and attractiveness, which can only be surpassed by the *Chrysanthemum*.

From the white branching variety we have, by careful selection, fixed two other colors, rose and purple. They are of the same branching habit as the parent, with flowers equally as large and beautiful.

This class of Asters bloom considerable later than all other varieties, and at a season when there is the greatest scarcity of flowers, a feature which will be readily appreciated by those who have been caught short.

Give these *New Branching Asters* a trial, and you will ever after have them in your collection.

The seed we offer has been specially grown for our trade, having been saved from the largest and most perfect flowers only.

## TERMS, ETC.

Cash must accompany orders, or satisfactory references required. We will ship goods C. O. D. when one-half the amount is sent with the order, return charges to be paid by the purchaser. Safe arrival of the goods is guaranteed, and any error made by us in filling order will be corrected, providing we are notified immediately that such has occurred. When ordering give full address and explicit shipping directions. Remit by Draft, Express Money Order, Registered Letter, or Post Office Order, drawn in favor of Vick & Hill Co. We have a full line of Plants, Shrubs, etc. If you desire anything not contained in our list, write us. In writing for special quotations, always state number of plants wanted.
